WORKING FORCE GREATLY
AUGMENTED.

With the two additional New York cutters and our greatly enlarged lorce we thought we were also to cope with any demand. But not so. This morning we enarged another New York cutter and a dozen additional tailors.

We are confident we can now meet all additional requirements. Let it will take a day or two to catch up with the orders previously booked, so be patient with us.

The Ten-dollar Trouserings fairly flew. Have added some patterns that were much higher in order to tone up the assortment.

GUNS AND ARMOR PLATES.

The Ordnance Bureau of the Navy Department in a Good State of Efficiency, It is just now an interesting fact that the of the highest efficiency.

The gun shops at the Washington navy yard ing kept in motion twelve hours a day. The morning the following resolutions were unant mer employed are divided into three sections | mously adopted:

very short notice the foundry can be run night and day without cessation, thus doubling the output. The only limit to the capacity of the works would be in the supply of material.

Yet there has not been the least trouble so far on this score. An additional fact of importance is that the steel that is being furnished by the private firms to the department for the manufacture of guns is of the highest year, in which over 1,200 tons of metal were sent to the navy yard, and only six tons rejected as imperfect.

It was charged that they were implicated in the robbery of Charles Dietz, the saloen keeper on New Jersey avenue near the Baltimore and Ohio depot.

They were defended by Lawyer Sillers, who said he would waive an examination in the case of Lawrence. He asked that bail be fixed in the case at \$500, saying he thought that amount would be attisfactory to the government.

Juige Miller said he would hear the testimony in the other cases before fixing the amount of bail.

Mr. Mullowney, for the government, called Mr. Dietz, who described how he was in a crowd when his pocket was picked of his gold watch and chain that he valued at \$75. He iden tifled Hilton as having been in the crowd at the time, although he had had his mustache shaved since his arrest here.

There have been no new messages received at the Chilean situation. The last cablegram from at the Navy Department about the Chilean situation. The last cablegram from Captain Squley threw some light upon the case, particularly the note about the method of Reagan's death. It is now chaimed that he died at the hands of a policeman, and the testimony to that effect comes from a man who stood near.

His previous silence on this point can only be explained on the ground that he was struck in the fight and dazed and that he has just recovered consciousness sufficiently to romember the circumstantees of the row.

Movement of Silver.—The issue of standard silver dollars from the mints and treasury offices during the week ended October 31 was \$755.975. The issue during the corresponding period of 1890 amounted to \$843.313. The shipments of fractional silver coin since the 1st ultimo aggregated \$1,676.133.

There is little analogy between the cases, but it is urged that the regulations of the may are sufficiently flexible to have permitted Capt. Schley to take a firm stand to the extent of a possible bombardment. This view, however, is not shared by the Navy Department, it would seem. One of the most important officials said this morning to a Star reporter that he could not see how Capt. Schley could have acted any differently in the matter.

The men were imprisoned but a day, and after his arrival here that the force of guards at Oliver had been largely increased, and that an attack upon the stockades would be stoutly resisted. It does not appear, however, that there was any resistance at all and no one was hurt. The men were imprisoned by Chilean men-of-war. Before him lay a town filled with the cases, but it is urged that the regulations of the may are sufficiently flexible to have permitted Capt. Schley to take a firm stand to the extent of a few who were captured, all are now at large. This makes more than 500 penitentiary convicts turned loose in that locality since Friday, but left this morning for Nashville. It was given out after his arrival here that the stockade of the essees was a mass of smoking ruins. All of the short term prisoners were furnished capt. Schley to have permitted Capt.
